

August 29, 2018

Together with the entire faculty of the Endocrinology, Diabetes & Metabolism Section, I would like to welcome everybody to our 2018 Annual Report. 2018 has been an eventful year for us, with new unique contributions in research, scholarship, clinical care and education. The section has published more than 50 papers, many of them in top journals, and has been the recipient of an unprecedented six NIH R01 grants. We have been active in national and international meetings and organizations and offer daily medical care to the Houston community at the Baylor St. Luke's Medical Center, the Michael E. DeBakey VA Medical Center, Ben Taub General Hospital, Smith Clinic and the St. Thomas Street Clinic. Our trans-institutional fellowship program with MD Anderson Cancer Center and Texas Children Hospital graduates five outstanding new endocrine fellows every year. As we are about to enter the third decade of the XXI century, our faculty is 100% committed to advance the science and clinical practice of endocrinology, diabetes & metabolism to the next level. Please enjoy and thank you for your interest.
